

CRUELLE EST LA NUIT

Director's statement

Cruel is the night is a very singular project : a short film mixing my love for genre cinema with tension, violence, nihilism, gore, sex and sick humo(u)r.

We can't denied it's a belgian film with surrealistic and twisted moments, but it's also very personal - with some autobiographical elements - and I guess in a way, it's saying things about our dark era filled with despair, terror and fear of terrorist acts.
